Dear WRF 4718 Project Participants,
This is just a quick reminder that tomorrow we are going to have our project update call. Irvine Ranch Water District (CA) and the University Area Joint Authority (PA) will kindly provide an overview of their BESS projects.

I am also attaching here the Literature Review that was initially developed for this study. Please keep in mind that this document is solely based on information available in the public domain and in the peer-reviewed literature. Some of the content is currently being revised after the discussion with the case studies and with the new findings from the various tasks of this project. The information presented in this literature review will be incorporated in the final report.

We welcome any comment and input on the document. ***Please do not share it or distribute outside your team***.

Best Regards,
Carla
